How To Understand USB TypeA-B-C

The USB Type-C interface is a type of USB interface. The USB interface currently has four main interface types:

1, USB Type-A, this type of interface is our most common USB interface, mainly used in computers, chargers, mice, keyboards, U disk and other devices. 2, USB Type-B, this type of interface is mainly used in printers and other equipment, there is no common type-A interface.

3, Micro-B, we have seen this interface, is the interface of the mobile phone charger.

4, USB Type-C, this is our main character today, is the future trend of USB interface.
